 - c. My parents/ go/ a jazz concert.
 - d. It/ not/ rain/at the weekend.
 - e. They/ learn/ to drive soon.

Reading

5. Read the text. Are the sentences true or false?

From the outside, the houses of the future will probably look the same as the houses of today. But home technologies will be very different. In the future there will be no keys. You will press buttons on a special mobile phone to open the door.

Each living room will have a big television. You will sit down on your sofa and just tell the TV to start playing your favorite program. And in your bedroom, you will probably have a giant screen on the wall so that you can watch films in bed.

The bathroom door also will be 'intelligent'. It will lock automatically when you enter the bathroom.

The homes of the future will also be more energy-efficient. thirty per cent of the electricity will come from solar energy and the houses will recycle water from the bath, sink and shower to flush the toilets.

So how long will you have to wait for these houses of the future? No one knows. Some people think homes will be like this in 2050. Others say that homes are already changing and that things will be very different in only ten or fifteen years.

- | | |
|---|-----|
| 1. You won't need keys to open the doors of the houses of the future. | T/F |
| 2. You will be able to talk to your TV. | T/F |
